Thanks Meredith. I have been following this so I would be interested in how you end up responding to the city.

Subject: Fw: Great Basin UAPCD Network Monitoring Plan

Hi Karen,

I just want to share with you the following request from the LA Water District regarding Great Basin's A Monitoring Network Plan. I think you may have been cc'd on the original comment. As you can see, the AMNP is becoming a legal target, which is forcing us to revise the process. As I mentioned previously, we will muddle our way through this year's plan without expecting any changes on your end but in the coming year we will need to work together to create a process that is both manageable and defensible. There is no action needed on your part at this time - I just want you be be aware of some of the circumstances compelling us to revise the AMNP process. Maybe there will even be some resources to help address this, although Lynn wasn't very optimistic about this.

-Meredith

Hi Paige,

Thanks for the follow-up email. I will have to check our records.

Subject: Great Basin UAPCD Network Monitoring Plan

Michael:

This email follows up the voicemail I left for you yesterday morning regarding the 2011 Ambient Air Monitoring Network Plan submitted to EPA by Great Basin UAPCD. Specifically, I wanted to confirm whether, for the period of 2006 to 2010, Great Basin had complied with the EPA requirement that it submit annual air monitoring data certification letters and accompanying information to the EPA to certify that the data collected at all SLAMS and at all FRM, FEM, and ARM SPM stations meet the criteria in appendix A of 40 CFR 58? (40 CFR 58.15(a)-(c).)

Thank you for help on this. Please let me know if you have questions or need any additional information.
